EXPERIENCE

Full-stack/ML Developer Intern

Qling.ai

04/2025 - 07/2025   Stockholm - Sweden

- Developed and maintained a full-stack Python application using Flask and MySQL in an Agile team environment, contributing to RESTful API design and implementation.
- Integrated external Google APIs to enhance application functionality and user experience.
- Debugged, refactored, and optimized codebase to boost performance, maintainability, and follow clean code principles.
- Embraced Agile methodologies, actively participating in daily standups as Scrum Master and fostering a culture of code quality and team collaboration using JIRA.
- Designed and implemented frontend features using HTML/ CSS, ensuring a responsive and user-friendly interface.

Math Teacher

Futuraskolan Hertig Karl

02/2023 - 07/2024   Stockholm - Sweden

- Taught math (grades 6–9) and mentored grade 7–8 students.
- Introduced programming logic and Python using free resources.
- Adapted to diverse learning levels and backgrounds.
- Supervised a student teacher: delegated tasks and gave feedback.

Teaching Assistant

International School of Stockholm Region - ISSR

02/2022 - 02/2023   Stockholm - Sweden

- Supported grade 4 students in collaboration with the teacher.
- Co-led a coding club using Scratch.
- Built strong organizational skills through weekly planning.

EDUCATION

Full Stack Software Development Diploma - Predictive Analytics Specialisation

Code Institute

09/2024 - 07/2025   Dublin - Ireland

- EQF Level 5 | Credit Rated by University of West of Scotland

Math Teaching Degree

Lapa University

06/2016 - 06/2017   Curitiba - Brazil

SUMMARY

Analytical and adaptable junior developer with a background in mathematics education and a diploma in software development with a specialization in predictive analytics. Experienced in full-stack development with Python, JavaScript, Django, Flask, and React. Passionate about problem solving, clean code, and user experience. Completed a full-stack/ML internship at Qling.ai, where I also served as Scrum Master, led standups, and implemented Google APIs. Known for being a fast learner, highly independent, and collaborative.

TECH STACK

Python   JavaScript   HTML5   CSS3   Node.js   TypeScript   React.js   React Native   Tailwind CSS   Bootstrap   jQuery   Django   Flask   REST APIs   SQL   Pandas   NumPy   Scikit-learn   TensorFlow   Git   GitHub   Heroku   VS Code   Figma   Agile   UX Design   Responsive Design   TDD   Clean Code   Communication   Leadership   Interpersonal Skills

PERSONAL PROJECTS

- ★ **Personal Portfolio** - React, Tailwind, TypeScript
- ★ **Loan Default Predictor** - Python, ML pipelines, SkicitLearn
- ★ **TakeCare Inventory Management** - Django, PostgreSQL, JavaScript
- ★ **Pin Head Lists** - JavaScript, HTML/CSS
- ★ **Best 1000 Movies Finder** - Python
- ★ **Vini Showcase Page** - React
- ★ **Advent Calendar** - React

BSc Chemistry

Federal University of Technology

08/2010 - 12/2015   Pato Branco - Brazil

TRAINING / COURSES

- Software Engineering Coding Bootcamp - **App Academy** *(2024)*
- Intro to Computer Science and Programming in Python - **MIT OpenCourseWare** *(2023)*

LANGUAGES

- English - Fluent
- Swedish - Advanced (completed SVA 3, Swedish for Educators)
- Portuguese - Native

SIDE PROJECTS

- **React Native mobile app** (in progress – private project): Developing a list/tracker app using React Native with a focus on performance, user experience, and component-based design.

- Participated in multiple **hackathons** (Code Institute), applying agile practices in team projects.
